

Amended Final Determination

Because there is now a final court decision, Commerce is amending its *Final Determination* with respect to the WW Group. Commerce finds that for the period July 1, 2015 through December 31, 2015, the following dumping margin exists:

Producer	Exporter	Weighted-average dumping margin (Percent)
WW Group	WW Group	67.66

Cash Deposit Requirements

Because the WW Group does not have a superseding cash deposit rate, *i.e.*, there have been no final results published in a subsequent administrative review for the WW Group, Commerce will issue revised cash deposit instructions to U.S. Customs and Border Protection. Effective December 20, 2019, the cash deposit rate applicable to entries of subject merchandise produced and exported by the WW Group is 67.66 percent.

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Reporting Requirements for Sea Otter Interactions with the Pacific Sardine Fishery; Coastal Pelagic Species (CPS) Fishery Management Plan (FMP).

OMB Control Number: 0648-0566

Form Number(s): None.

Type of Request: Regular submission (Extension of a currently approved collection).

Number of Respondents: 2

Average Hours per Response: 15 minutes.

Burden Hours: 1.

Needs and Uses: Example: On May 30, 2007, the National Marine Fisheries Service (NMFS) published a final rule (72 FR 29891) implementing a requirement under the CPS FMP to report any interactions that may occur between a CPS vessel and/or fishing gear and sea otters.

Specifically, these reporting requirements are:

1. If a southern sea otter is entangled in a net, regardless of whether the animal is injured or killed, such an occurrence must be reported within 24 hours to the Regional Administrator, NMFS West Coast Region.

2. While fishing for CPS, vessel operators must record all observations of otter interactions (defined as otters within encircled nets or coming into contact with nets or vessels, including but not limited to entanglement) with their purse seine net(s) or vessel(s). With the exception of an entanglement, which will be initially reported as described above, all other observations must be reported within 20 days to the Regional Administrator.

When contacting NMFS after an interaction, fishermen are required to provide information regarding the location, specifically latitude and longitude, of the interaction and a description of the interaction itself. Descriptive information of the interaction should include: Whether or not the otters were seen inside or outside the net; if inside the net, had the net been completely encircled; did contact occur with net or vessel; the number of otters present; duration of interaction; otter's behavior during interaction; and measures taken to avoid interaction.

Affected Public: Business or other for-profit.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.
