

the BVCPS facility recognized by OSHA and included as part of the renewal request is:

1. Bureau Veritas Consumer Products Services, Inc. (BVCPS), Littleton Distribution Center, One Distribution Center Circle, Suite #1, Littleton, Massachusetts 01460.

II. Notice of Preliminary Finding

OSHA is providing notice that BVCPS is applying for renewal of its recognition as a NRTL. This renewal covers BVCPS's existing NRTL scope of recognition. OSHA evaluated BVCPS's application for renewal and preliminarily determined that BVCPS can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a determination that it does not need to conduct an additional on-site review of BVCPS's facilities based on its evaluations of BVCPS's application and all other available information. This information includes OSHA audits of BVCPS recognized NRTL site during this recognition period, and the satisfactory resolution of non-conformances with the requirements of 29 CFR 1910.7. This preliminary finding does not constitute an interim or temporary approval of the request.

OSHA welcomes public comment as to whether BVCPS meets the requirements of 29 CFR 1910.7 for renewal of their recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in BVCPS's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office at the address listed above. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA–2009–0026.

The NRTL program staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary on whether to grant BVCPS's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may

undertake other proceedings prescribed in appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. Background

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational web page for each NRTL that details its scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

The agency processes applications by a NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, Appendix A, Section II.C. In accordance with these procedures, NRTLs would submit a renewal request to OSHA, not less than nine months or no more than one year, before the expiration date of its current recognition. A request would include a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL headquarters and any key sites within the past 18 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the **Federal Register** and solicit comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

TÜV SÜD Product Services GmbH (TUVPSG) initially received OSHA recognition as a NRTL on July 20, 2001 (66 FR 38032). TUVPSG's most recent renewal was granted on January 30, 2014, for a five year period ending on January 30, 2019. TUVPSG submitted a timely request for renewal, dated April 16, 2018 (OSHA-2005-0022-0012), and

retains its recognition pending OSHA's final decision in this renewal process. The current addresses of TUVPSG facilities recognized by OSHA and included as part of the renewal request are:

1. TÜV SÜD Product Services GmbH Munich, Ridlerstrasse 65 D-80339 Munich, Germany; and
2. TÜV SÜD Product Services GmbH, Daimlerstrasse 11 D-85748 Garching, Germany.

II. Notice of Preliminary Findings

OSHA is providing notice that TUVPSG is applying for renewal of its recognition as a NRTL. This renewal covers TUVPSG's existing NRTL scope of recognition. TUVPSG submitted an acceptable application for renewal of its recognition as a NRTL on April 16, 2018. OSHA evaluated TUVPSG's application for renewal and preliminarily determined that TUVPSG can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a determination that it does not need to conduct an additional on-site review of TUVPSG's facilities based on its evaluations of TUVPSG's application and all other available information. This information includes OSHA's audits of TUVPSG's recognized NRTL sites during this recognition period, and the satisfactory resolution of non-conformances with the requirements of 29 CFR 1910.7. This preliminary finding does not constitute an interim or temporary approval of the request.

OSHA welcomes public comment as to whether TUVPSG meets the requirements of 29 CFR 1910.7 for renewal of their recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in TUVPSG's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-3653, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2005-0022.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary on whether to grant TUVPSG's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

III. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, Washington, DC 20210, authorized the preparation of this notice.
