A. Background

For background on the proceedings in this investigation, please see prior notices including 82 FR 40213 (August 23, 2017), 83 FR 14906 (April 6, 2018), 83 FR 28710 (June 20, 2018), 83 FR 32181 (July 11, 2018), 83 FR 67463 (December 28, 2018), 84 FR 11152 (March 25, 2019), 84 FR 16310 (April 18, 2019), 84 FR 21389 (May 14, 2019), 84 FR 25895 (June 4, 2019), 84 FR 32821 (July 9, 2019), 84 FR 46212 (September 3, 2019), 84 FR 49564 (September 20, 2019), 84 FR 52567 (October 2, 2019), 84 FR 58427 (October 31, 2019), 84 FR 70616 (December 23, 2019), 84 FR 72102 (December 30, 2019), 85 FR 6687 (February 5, 2020), 85 FR 12373 (March 2, 2020), and 85 FR 16181 (March 20, 2020).

Effective July 6, 2018, the U.S. Trade Representative imposed additional 25 percent duties on goods of China classified in 818 8-digit subheadings of the Harmonized Tariff Schedule of the United States (HTSUS), with an approximate annual trade value of \$34 billion. See 83 FR 28710 (the \$34 billion action). The U.S. Trade Representative's determination included a decision to establish a process by which U.S. stakeholders could request exclusion of particular products classified within an 8-digit HTSUS subheading covered by

the \$34 billion action from the additional duties. The U.S. Trade Representative issued a notice setting out the process for the product exclusions, and opened a public docket. See 83 FR 32181 (the July 11 notice).

In April 2019, the U.S. Trade Representative granted a set of exclusion requests, which expire on April 18, 2020. See 83 FR 67463 (the April 18 notice). On February 5, 2020, the U.S. Trade Representative invited the public to comment on whether to extend, by up to 12 months, particular exclusions granted in the April 18 notice. See 85 FR 6687 (the February 5 notice).

Under the February 5 notice, commenters were asked to address whether the particular product and/or a comparable product is available from sources in the United States and/or in third countries; any changes in the global supply chain since July 2018 with respect to the particular product, or any other relevant industry developments; and efforts, if any, importers or U.S. purchasers have undertaken since July 2018 to source the product from the United States or third countries.

In addition, commenters who were importers and/or purchasers of the products covered by an exclusion were asked to provide information regarding their efforts since July 2018 to source the product from the United States or third countries; the value and quantity of the Chinese-origin product covered by the specific exclusion request purchased in 2018, the first half of 2018, and the first half of 2019, and whether these purchases are from a related company; whether Chinese suppliers have lowered their prices for products covered by the exclusion following the imposition of duties; the value and quantity of the product covered by the exclusion purchased from domestic and third country sources in 2018, the first half of 2018 and the first half of 2019; the commenter's gross revenue for 2018, the first half of 2018, and the first half of 2019; whether the Chinese-origin product of concern is sold as a final product or as an input; whether the imposition of duties on the products covered by the exclusion will result in severe economic harm to the commenter or other U.S. interests; and any additional information in support or in opposition of the extending the exclusion.

The February 5 notice required the submission of comments no later than March 16, 2020.

³ Although ATL initially submitted its verified notice on March 19, 2020, the date of its supplement is considered the filing date and the basis for all dates in this notice.

B. Determination To Extend Certain Exclusions

Based on the evaluation of the factors set out in the July 11 notice and February 5 notice, which are summarized above, pursuant to sections 301(b), 301(c), and 307(a) of the Trade Act of 1974, as amended, and in accordance with the advice of the interagency Section 301 Committee, the U.S. Trade Representative has determined to extend for 12 months certain product exclusions covered by the February 5 notice, as set out in the Annex to this notice. The U.S. Trade Representative's determination also takes into account advice from advisory committees and any public comments concerning the extension of the pertinent exclusion.

In accordance with the July 11 notice, the exclusions are available for any product that meets the description in the Annex, regardless of whether the importer filed an exclusion request. Further, the scope of each exclusion is governed by the scope of the 10-digit HTSUS headings and product descriptions in the Annex to this notice, and not by the product descriptions set out in any particular request for exclusion.

As set out in the Annex, the U.S. Trade Representative has determined to extend the following exclusions granted under the April 18, 2019 notice under heading 9903.88.07 and under U.S. note 20(j) to subchapter III of chapter 99 of the HTSUS: (2), (4), (6), (7), (11), (12), (14), and (21).

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

Title: Operational Waivers for Small Unmanned Aircraft Systems.

Form Numbers: N/A (Online Portal).

Type of Review: New.

Background: The FAA has seen increased operations of small unmanned aircraft systems (sUAS) flying under 14 CFR part 107. Under 14 CFR 107.205, operators of small UAS may seek waivers from certain operational rules. The FAA is updating and modernizing the process for applying for such waivers using the DroneZone website. These improvements will facilitate the process of collecting and submitting the information required as part of a waiver application. The reporting burdens for operational waiver applications are currently covered by Information Collection Request (ICR) 2120-0768. As part of this effort, the FAA is creating a new ICR just for operational waiver applications. In order to process operational waiver requests, the FAA requires the operator's name, the operator's contact information, and information related to the date, place, and time of the requested small UAS operation. Additional information is required related to the proposed waiver and any necessary mitigations. The FAA will use the requested information to
