

comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

I. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Requests to Agreement States for Information.

2. *OMB approval number:* 3150-0029.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* One time or as needed.

6. *Who will be required or asked to respond:* Thirty-nine Agreement States who have signed Section 274(b) Agreements with the NRC.

7. *The estimated number of annual responses:* 624 (1,872 over the course of the three-year clearance period).

8. *The estimated number of annual respondents:* 39.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 4,992 (14,976 over the course of the three-year clearance period).

10. *Abstract:* The NRC is requesting OMB approval of a plan for a generic collection of information. The need and practicality of the collection can be evaluated, but the details of the specific individual collections will not be known until a later time. The Agreement States will be asked on a one-time or as needed basis to respond to a specific incident, to gather information on licensing and inspection

practices or other technical information. The results of such information requests, which are authorized under Section 274(b) of the Atomic Energy Act, will be utilized on part by the NRC in preparing responses to Congressional inquiries.

II. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 10th day of March 2020.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-0157; NRC-2009-0382]

University of Texas at Austin, TX

AGENCY: Nuclear Regulatory Commission.

ACTION: License termination; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is providing public notice of the termination of Special Nuclear Materials (SNM) License No. SNM-180. The NRC has terminated the license held by the University of Texas at Austin (UTX-A) to possess and use SNM for research, training, and educational purposes.

DATES: The license termination for SNM-180 was issued on January 23, 2020.

ADDRESSES: Please refer to Docket ID NRC-2009-0382 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2009-0382. Address questions about NRC docket IDs in

[Regulations.gov](https://www.regulations.gov) to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC has terminated License No. SNM-180, held by UTX-A at its Nuclear Engineering Teaching Laboratory (NETL). The NETL used SNM to supplement its training program in the field of nuclear engineering. The licensed materials were to be used in experiments in the NETL at the J.J. Pickle Research Campus in Austin, Texas. The license was most recently renewed on November 13, 2009 and was due for renewal in November 2019. Instead, due to a change in the direction of research activities at the NETL resulting in the disuse of licensed SNM, UTX-A arranged to ship the licensed SNM to the U.S. Department of Energy (DOE) in Oak Ridge, Tennessee. By letter dated November 15, 2019, the NETL forwarded notification to the NRC that packaging and shipment to DOE had been completed.

UTX-A's initial license was issued February 27, 1958, and the most recent renewal was issued on November 13, 2009. However, the SNM licensed for use by UTX-A had been in storage and unused since prior to the last license renewal. An application to terminate the license was received by the NRC on

November 15, 2019. The NRC staff prepared a safety evaluation report for the termination of SNM-180 and concluded that this license termination complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, section 70.38 of

title 10 of the *Code of Federal Regulations* (10 CFR), and other applicable NRC's rules and regulations as set forth in 10 CFR chapter 1. Accordingly, this license termination was issued on January 23, 2020.

II. Availability of Documents

The documents identified in the following table are available to interested persons through the ADAMS accession numbers as indicated.

Document	ADAMS accession No.
Initial License SNM-180	ML19354A020
License Renewal Application for SNM-180 (Public Version)	ML080240243
Ltr to S. Biegalski, Approval of the University of Texas at Austin License Renewal Application for the Nuclear Engineering Teaching Laboratory.	ML093030048
Enclosure 4. Safety Evaluation Report for the Renewal of License SNM-180 for the University of Texas at Austin	ML093030057
University of Texas at Austin SNM-180 Termination Request (Package)	ML19337A016
Approval of Amendment Request for Special Nuclear Material-180 License Termination and Amendment 2 (Package)	ML19352E566

Dated at Rockville, Maryland, this 11th day of March 2020.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-11; NRC-2018-0147]

Sacramento Municipal Utility District; Rancho Seco Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: License renewal; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued a renewed license to the Sacramento Municipal Utility District for Special Nuclear Materials (SNM) License No. SNM-2510 for the receipt, possession, transfer, and storage of radioactive material from the Rancho Seco Nuclear Generating Station in the Rancho Seco independent spent fuel storage installation (ISFSI). The Rancho Seco ISFSI is located on the Rancho Seco site, in Sacramento County, California. The renewed license authorizes operation of the Rancho Seco ISFSI in accordance with the provisions of the renewed license and its technical specifications. The renewed license expires on June 30, 2060.

DATES: The license referenced in this document is available as of March 9, 2020.

ADDRESSES: Please refer to Docket ID NRC-2018-0147 when contacting the

NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- **Federal Rulemaking website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2018-0147. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

FOR FURTHER INFORMATION CONTACT: Kristina Banovac, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7116, email: Kristina.Banovac@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

Based upon the application dated March 19, 2018, as supplemented June 25, 2018, August 6, 2018, September 26, 2018, April 22, 2019, June 26, 2019, July 12, 2019, and January 23, 2020, the NRC has issued a renewed license to the licensee for the Rancho Seco ISFSI, located in Sacramento County, California. The renewed license SNM-2510 authorizes and requires operation of the Rancho Seco ISFSI in accordance with the provisions of the renewed license and its technical specifications. The renewed license will expire on June 30, 2060.

The licensee's application for a renewed license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC's rules and regulations. The NRC has made appropriate findings as required by the Act and the NRC's regulations in chapter 1 of title 10 of the *Code of Federal Regulations* (10 CFR), and sets forth those findings in the renewed license. The agency afforded an opportunity for a hearing in the Notice of Opportunity for a Hearing published in the **Federal Register** on August 22, 2018 (83 FR 42527). The NRC received no request for a hearing or petition for leave to intervene following the notice.

The NRC staff prepared a safety evaluation report for the renewal of the ISFSI license and concluded, based on that evaluation, the ISFSI will continue to meet the regulations in 10 CFR part 72. The NRC staff also prepared an environmental assessment and finding of no significant impact for the renewal of this license, which were published in the **Federal Register** on March 6, 2020 (85 FR 13191, Docket ID NRC-2019-0148). The NRC staff's consideration of the impacts of continued storage of
