Rural Business-Cooperative Service

Title: Rural Micro-Entrepreneur Assistance Program.

OMB Control Number: 0570-0062.

Summary of Collection: Section 6022 of the Food, Conservation, and Energy Act of 2008 (2008 Farm Bill) authorizes the Rural Microentrepreneur Assistance Program (RMAP). The Secretary makes direct loans to rural microenterprise development organizations (MDOs) that are participating in the program (who are referred to as "microlenders") for the purpose of capitalizing microloan revolving funds to provide fixed interest rate business loans of \$50,000 or less to microentrepreneurs, as defined in the 2008 Farm Bill.

Need and Use of the Information: The program provides rural microentrepreneurs with the skills necessary to establish new rural microenterprises; to provide continuing technical and financial assistance related to the successful operation of rural microenterprises; and to assist with the cost of providing other activities and services related to the successful operation of MDOs and rural microenterprises. Microlenders seeking loans and/or grants will have to submit applications that include specified information, certifications, and agreements to the Agency. This information will be used to determine applicant eligibility and to ensure that funds are used for authorized purposes. Failure to collect proper information could result in improper determinations of eligibility of improper use of funds.

Description of Respondents: Business or other for-profit; Not-for-profit Institutions; State, Local or Tribal governments.

Number of Respondents: 40.

Frequency of Responses: Reporting: Quarterly, Annually.

Total Burden Hours: 1,907.

Submission for OMB Review; Comment Request

February 19, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the

Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by March 25, 2020 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW, Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Domestic Quarantine Regulations.

OMB Control Number: 0579-0088.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772) the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. Plant Protection and Quarantine, a program within USDA's Animal and Plant Health Inspection Service, (APHIS) is responsible for implementing this Act and does so through the enforcement of its domestic quarantine regulations

contained in Title 7 of the Code of Federal Regulations, CFR part 301. Administering these regulations often requires APHIS to collect information from a variety of individuals who are involved in growing, packing, handling, transporting, plants and plant products. The information collected from these individuals is vital to helping ensure that injurious plant diseases and insect pests do not spread within the United States. Information to be collected is necessary to determine compliance with domestic quarantines. Federal/State domestic quarantines are necessary to regulate the movement of articles from infested areas to noninfested area. Collecting information requires the use of a number of forms and documents. APHIS will collect information using various forms and documents.

Need and Use of the Information: APHIS will collect information by interviewing growers and shippers at the time the inspections are being conducted and by having growers and shippers of exported plants and plant products complete an application for a transit permit. Information is collected from the growers, packers, shippers, and exporters of regulated articles to ensure that the articles, when moved from a quarantined area, do not harbor injurious plant diseases and insect pests. The information obtained will be used to determine compliance with regulations and for issuance of forms, permits, certificates, and other required documents.

Description of Respondents: State, Local or Tribal Government; Business or other for-profit; Farms; Individuals.

Number of Respondents: 12,861.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 345,950.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade. The CCMAS is responsible for defining the criteria appropriate to Codex Methods of Analysis and Sampling; serving as a coordinating body for Codex with other international groups working in methods of analysis and sampling and quality assurance systems for laboratories; specifying, on the basis of final recommendations submitted to it by other bodies, reference methods of analysis and sampling, appropriate to Codex standards which are generally applicable to a number of foods; considering, amending, and endorsing, as appropriate, methods of analysis and sampling proposed by Codex (Commodity) Committees, (except that methods of analysis and sampling for residues of pesticides or veterinary drugs in food, the assessment of microbiological quality and safety in food, and the assessment of specifications for food additives, do not fall within the terms of reference of this Committee); elaborating sampling plans and procedures; considering specific sampling and analysis problems submitted to it by the Commission or any of its committees; and defining procedures, protocols, guidelines, or related texts for the assessment of food laboratory proficiency, as well as quality assurance systems for laboratories.

The CCMAS is hosted by Hungary, and the meeting is attended by the United States as a member country of the Codex Alimentarius.

Issues To Be Discussed at the Public Meeting

The following items on the Agenda for the 40th Session of the CCMAS will be discussed during the public meeting:

- Matters Referred to the Committee by the Codex Alimentarius Commission and Other Subsidiary Bodies

- Endorsement of Methods of Analysis Provisions and Sampling Plans in Codex Standards
- Review of Methods of Analysis in the Codex Standard on Recommended Methods of Analysis and Sampling (CXS 234–1999)
- Dairy workable package
- Fats and oils workable package
- Cereals, pulses and legumes workable package
- Revision of the Guidelines on Measurement Uncertainty
- Information document on the Guidelines of Measurement Uncertainty
- Revision of the General Guidelines on Sampling (CXG 50–2004)
- Discussion paper on criteria to select Type II methods from multiple Type III methods
- Report of an Inter-Agency Meeting on Methods of Analysis
- Other Business and Future Work

Each issue listed will be fully described in documents distributed, or to be distributed by the Secretariat before the Committee meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).

Public Meeting

At the April 16, 2019, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to Gregory O. Noonan.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, the U.S. Codex Office will announce this **Federal Register** publication on-line through the USDA Codex web page located at: <http://www.usda.gov/codex>, a link that also offers an email subscription service providing access to information related to Codex. Customers can add or delete their subscriptions themselves and have the option to password protect their accounts.

SUPPLEMENTARY INFORMATION:

Title: Voluntary Destruction of Imported Meat, Poultry, and Egg Products.

OMB Control Number: 0583-XXXX.

Type of Request: Request for a new information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

Imported meat, poultry, and egg products that do not comply with U.S. requirements are not allowed to enter U.S. commerce and are identified as "U.S. Refused Entry" product. Inspection Program Personnel (IPP) are required to verify that U.S. refused entry product is stored and segregated from other product at an official import inspection establishment until final disposition occurs, or permission to

move the shipment is granted by a FSIS Office of Field Operations (OFO) District Office (DO).

The regulations at 9 CFR 327.13, 381.202, 557.13, and 590.945 provide different options for the disposition of U.S. Refused entry product, including: (1) Exportation (return) of the product to the originating country or to a third country, if permitted; (2) destruction of the product for human food purposes; (3) denaturing the product so it cannot be used for human food; (4) conversion of the product to animal food if permitted and approved by the Food and Drug Administration (FDA), and that permission is communicated to the FSIS DO; and (5) rectification if the reason for refusal has been corrected.

FSIS is requesting a new information collection to document the Importer/Broker/Agent decision to voluntarily destroy product for human food purposes. This information collection is applicable only to destruction witnessed by FSIS IPP. FSIS IPP will use the information during the observation of the product destruction to verify that the product being destroyed is the same product that was refused entry and that the product is controlled by the import establishment until destruction is completed. This is a new information collection with an estimated burden of 17,818 hours.

The Importer/Broker/Agent will complete FSIS Form 9840-4, *Voluntary Destruction of Imported Meat (Including Siluriformes), Poultry, and Egg Product*, for product that will be destroyed under FSIS supervision. The form will be maintained in the FSIS case file. IPP will also enter information into the Public Health Information System (PHIS) based on the information provided on the form.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 5 minutes per response.

Respondents: Importers/Brokers/Agents.

Estimated Total Number of Respondents: 151.

Estimated Annual Number of Responses per Respondent: 1,416.

Estimated Total Annual Burden on Respondents: 17,818 hours. Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.
