

6. Authorization for the Social Security Administration to Obtain Wage and Employment Information from Payroll Data Providers—0960–0807.

Section 824 of the Bipartisan Budget Act (BBA) of 2015, Public Law 114–74, authorizes SSA to enter into information exchanges with payroll data providers for the purposes of improving program administration and preventing improper payments in the Social Security Disability Insurance (SSDI) and SSI programs. SSA uses Form SSA–8240, “Authorization for the Social Security Administration to Obtain Wage and Employment Information from Payroll Data Providers,” to secure the authorization needed from the relevant members of the public to obtain their wage and employment information from payroll data providers. Ultimately, SSA uses this wage and employment

information to help determine program eligibility and payment amounts.

The public completes Form SSA–8240 using the following modalities: A paper form; the internet; and an in-office or telephone interview, during which an SSA employee documents the wage and employment information authorization information on one of SSA’s internal systems (the Modernized Claims System (MCS); the SSI Claims System; eWork; or iMain). The individual’s authorization remains effective until one of the following four events occurs:

- SSA makes a final adverse decision on the application for benefits, and the applicant has filed no other claims or appeals under the Title for which SSA obtained the authorization;
- the individual’s eligibility for payments ends, and the individual has

not filed other claims or appeals under the Title for which SSA obtained the authorization;

- the individual revokes the authorization verbally or in writing; or
- the deeming relationship ends (for SSI purposes only).

SSA requests authorization on an as-needed basis as part of the following processes: (a) SSDI and SSI initial claims; (b) SSI redeterminations; and (c) SSDI Work Continuing Disability Reviews. The respondents are individuals who file for, or are currently receiving, SSDI or SSI payments, and any person whose income and resources SSA counts when determining an individual’s SSI eligibility or payment amount.

Type of Request: Revision of an OMB approved information collection.

* We based this figure on average DI payments, as reported in SSA’s disability insurance payment data.

** We based this figure on the average FY 2020 wait times for field offices, based on SSA’s current management information data.

*** This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*

7. myWageReport—20 CFR 404.1520(b), 404.1571–1576, & 404.1584–1593—0960–0808. The myWageReport application enables SSDI beneficiaries and representative payees to report earnings electronically. It generates a receipt for the beneficiary and/or representative payee, thus

providing confirmation that SSA received the earnings report. SSA screens the information submitted through the myWageReport application and determines if we need additional employment information. If so, agency personnel reach out to beneficiaries or their representative payees and use

Form SSA–821, Work Activity Report (0960–0059), to collect the additional required information. The respondents for this collection are SSDI recipients or their representative payees.

Type of Request: Revision of an OMB approved information collection.
