AGENCY: Surface Transportation Board.

ACTION: Notice and request for comments.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Surface Transportation Board (STB or Board) gives notice of its intent to seek approval from the Office of Management and Budget (OMB) for an extension of the collection of Rail Depreciation Studies, described below. The Board previously published a notice about this collection in the **Federal Register** on December 12, 2019 (84 FR 67,990). That notice allowed for a 60-day public review and comment period. No comments were received.

DATES: Comments on this information collection should be submitted by March 30, 2020.

Description of Collection

Title: Rail Depreciation Studies.

OMB Control Number: 2140-0028.

Form Number: None.

Type of Review: Extension without change.

Respondents: Class I railroads.

Number of Respondents: 7.

Estimated Time per Response:

Approximately 250 hours per study (estimating that studies will require between 125 hours and 375 hours depending on the extent to which the carriers assist outside consultants perform the study).

Frequency of Response: Bi-annual.

(Under 49 CFR part 1201, section 4-1 to 4-4, the Board requires all Class I (large) carriers to submit depreciation studies no less than every three years for equipment property and every six years for road property. That means that for any given six-year period, the Class I railroads must submit no less than three depreciation reports, or the equivalent of 0.5 depreciation reports per year.)

Total Annual Hour Burden: 875 hours (250 hours $\times$ 0.5 studies/year $\times$ 7 Class I railroads).

Total Annual "Non-Hour Burden"

Cost: Approximately \$175,000 per year. Board staff estimates that each study will cost between \$20,000 and \$80,000, which equals a cost of approximately \$10,000-\$40,000 per year. Using an average cost (\$25,000 per year $\times$ 7 Class I railroads), the non-hour burden cost is estimated to be approximately \$175,000 per year.

Needs and Uses: Under 49 CFR part 1201, section 4-1 to 4-4, the Board is required to identify those classes of property for which rail carriers may include depreciation charges under operating expenses, and the Board must also prescribe a rate of depreciation that may be charged to those classes of property. Under 49 U.S.C. 11145, Class I rail carriers are required to submit depreciation studies to the Board. Information in these studies is not available from any other source. The Board uses the information in these studies to prescribe depreciation rates. These depreciation rate prescriptions state the period for which the depreciation rates therein are applicable. Class I railroads apply the prescribed depreciation rates to their investment base to determine a monthly

and annual depreciation expense. This expense is included in the railroads' operating expenses, which are reported in their R-1 reports (OMB Control Number 2140-0009). Operating expenses are used to develop operating costs for application in various proceedings before the Board, such as in rate reasonableness cases and in the determination of railroad "revenue adequacy."

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Section 3507(b) of the PRA requires, concurrent with an agency's submitting a collection to OMB for approval, a 30-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Information from certain schedules contained in these reports is available at the Board's website at www.stb.gov by navigating to "Reports & Data" and clicking on "Economic Data." Information in these reports is not available from any other source.
