

MIPS Value Pathways

Structure of Traditional MIPS	MIPS Value Pathways Framework	Future State of MIPS
-------------------------------	-------------------------------	----------------------

- Many Choices
- Not Meaningfully Aligned
- Higher Reporting Burden

- Cohesive
- Lower Reporting Burden
- Focused Participation around Pathways that are Meaningful to Clinician’s Practice/Specialty or Public Health Priority

- Simplified
- Increased Voice of the Patient
- Increased CMS Provided Data
- Facilitates Movement to Alternative Payment Models (APMs)

Population Health Measures: a set of administrative claims-based quality measures that focus on public health priorities and/or cross-cutting population health issues; CMS provides the data through administrative claims measures, for example, the All-Cause Hospital Readmission measure.
