Motion for a resolution

Paragraph 16 a (new)

Motion for a resolution

Amendment

16a. Notes that this situation has helped to identify and confirm car use as one of the principal causes of increased emissions of atmospheric pollutants, since it was the traffic monitoring stations that registered the largest increases in emissions following the easing of lockdown restrictions; points out that these data confirm existing findings of the impact of private vehicle use on air quality in large urban centres and that pollutant emissions from this source can only be reduced by promoting the more widespread use of less polluting public transport alternatives;

Motion for a resolution

Paragraph 16 b (new)

Motion for a resolution

Amendment

16b. Notes that Commission support for programmes such as the free public transport services provided in a number of European cities would be a major step towards meeting the targets set in the air quality directives, involving specific mitigation and prevention measures designed to reduce pollution to agreed levels;
